the gift of
music

You're in safe hands with Creative Music for Schools

Creative Music for Schools specialises in music tuition for school children of all ages. Creative Music programs have been successfully operating since 1988.

We conduct during and after school music programs in almost 100 Melbourne schools. You and your child can feel safe in our knowledge, experience and our professionalism.

The programs offer hands-on tuition in keyboard, guitar, woodwind, voice, percussion, brass and violin at selected schools. Creative Music teachers are trained and experienced; responsible teachers who not only understand music but understand the imperative to communicate with and encourage children in order to make them feel comfortable and confident.

Your child's development and progress is our concern.

Smarter children and more confidence

Our own experience indicates that a child's level of self-confidence and ability to concentrate generally improve as they maintain their music practice. Overall

school performance can also be enhanced. But perhaps most importantly, learning an instrument can create a lifelong love affair, not just with music, but with learning new skills and developing one's potential in all areas of life.

According to a US psychologist, Dr Francis Raucher, *'learning keyboard for 15 minutes per week can boost aspects of a child's IQ by an average of 47%.'*

Creative Music for Schools aims to foster a child's natural enthusiasm and encourages them to enjoy their steady progress with positive feedback and support.

Our regular informal concerts consolidate the child's learning and help to reduce their inhibitions in performance situations.

Small groups or private lessons

Children are taught in small groups, usually 2-3, to ensure personal attention and maximum learning potential. Private lessons are also available if required.

The emphasis for the student is on fun and enjoyment while our teachers integrate the necessary instrumental technique through a variety of practical approaches and children are introduced to reading music and music theory from the very beginning.

Certificates are awarded for successful completion of every level of the course and parents are provided with twice yearly reports of their child's progress.

The programs are flexible enough for children to begin lessons at any stage of the year.

Children should be at least five years old to begin the Prep keyboard and violin course, and at least six and half for guitar and voice. Children aged as young as 8 are usually old enough to begin percussion, woodwind or brass.

We can supply instruments

Instruments are available for purchase or hire through Creative Music at very reasonable rates. We even offer a fantastic 'Buy-Back' scheme which allows you to purchase an instrument and get your money back if things don't work out. Simply ask our friendly staff or visit www.creativemusic.com.au for further details.

And it's affordable

Teaching your child music is surprisingly affordable with Creative Music, plus there are substantial discounts for early payment, families and Health Care Card holders. Payment plans are also available.

Call Creative Music for Schools for more details of how you can give your child the gift of music in the safe and familiar environment of their own school. For further information please phone:
