On Tuesday 28th of April two students from each year six class participated in a cooking class with Mrs. Cooke. We made spring rolls. I think everyone had a good time and we used ingredients from our garden.

I really enjoyed it. It was a great experience. We picked our own veggies and cooked everything. The food was delicious. I wish I could do it again. I also learnt how to make spring rolls. It was very satisfying hearing all the teachers comments. They loved it. Thank you for the experience Mrs. Cooke.

Marko 6RQ

I think it was fun and it give kids ideas of different foods that can make something delicious.

Stephania

Cooking spring rolls was a great experience because I have never cooked spring rolls before from scratch. My spring rolls were so delicious. As I was cooking the food it made my mouth water and it was even better when I tried them. It was great to hear that the teachers loved the food. I would love to do it again. Thank you Mrs Cooke.

Alana

On the 28th of April, two people from each year 6 class were chosen to cook with Mrs Cooke in the staffroom. The first week we looked up ingredients from Coles to make delicious spring rolls. The next week we chopped up our ingredients and rolled them in a thin sheet. We served them to all the teachers in our long black aprons. We enjoyed learning how to cook. Hopefully you get the chance to cook next time Mrs. Cooke does it again.

Chelsie

We made spring rolls on the 28th of April. We made them with Mrs. Cooke. First we went on the Coles web site to plan our budget and then Mrs Cooke went and bought all the ingredients. After we made the filling we had to roll the spring rolls then put them into the oven. Later when they were made we took them to all the staff of TMPS and we also got to eat them too. Hope you guys get to have the same experience as us.
